Type Approval Certificate of Ballast Water Management System

Treatment Rated Capacity:	5 to 5000	**m^3/h**

A copy of this Type Approval Certificate should be carried on board a vessel fitted with this Ballast Water Management System at all times. A reference to the test protocol and a copy of the test results should be available for inspection on board the vessel. If the Type Approval Certificate is issued based on approval by another Administration, reference to that Type Approval Certificate shall be made.

Limiting Operating Conditions imposed as described in the Design Appraisal Document forms part of this certificate. This certificate remains valid up to the expiry dated unless cancelled or revoked, or until such date where it is superseded by the requirements of the Marine Equipment Directive whichever is the earlier, provided the conditions in the attached schedule are complied with and the equipment remains satisfactory in service.

Note:
This certificate is not valid for equipment, the design or manufacture of which has been varied or modified from the specimen tested. The manufacturer should notify the nominated body named on this certificate of any modification or changes to the equipment in order to obtain a valid Certificate.
This certificate is issued under the authority given in 'order on management of ballast water and sediments from ships ballast water tanks and order on survey and certification of ships using ballast water and ballast water management plans and ballast records'.
